

Vijay Jayamani & Khushi Thakkar

Team & Relevant Experience

VIJAY JAYAMANI

Co-founder, Strategy & Partnerships (Systems Engineering, GWU). Leads business strategy, partnerships, and market expansion. Has previous startup experience and strong connections tied with student engagements at GW.

KHUSHI THAKKAR

Khushi Thakkar – Co-founder, Product Development (Computer Science, GWU). Oversees technical development, platform optimization, and user experience. Has previous experience in IT, software, and marketing.

Customer

Primary Customer

- College students (ages 18-23),
  - encounter scheduling conflicts or find it tough to search for clubs or university events

Secondary Customer

- Club leaders (ages 18 and up)
  - club management
  - engagement through effective communication.

College Student:

- Time management
- Tech-savvy and prefer digital solutions

Club Leaders:

- Responsible for member recruitment
- engagement
- event planning

Needs:

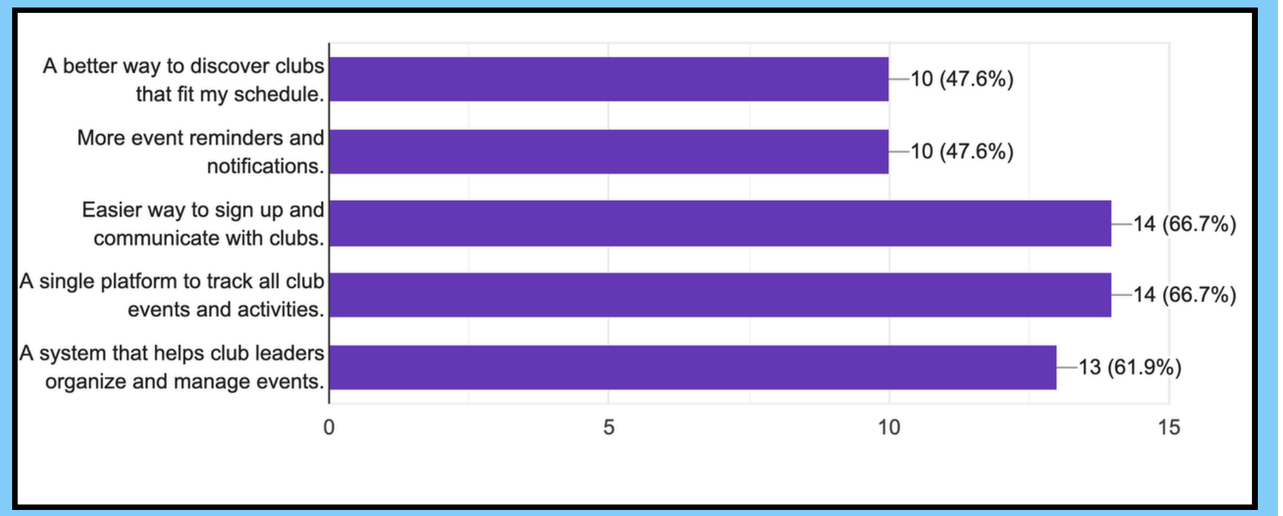

- enhance participation
- reduce logistical conflicts.

Goals:

- Increase club visibility
- improve member experience
- simplify administrative tasks

Customer Discovery

If you could improve how clubs communicate and organize events, what would be most helpful?

70% said they would be more likely to attend club events if there was more personalized reminders

70% of club leaders said they needed a better way to track club involvement

When asked about the biggest frustrations with GW Engage, most responses said "Hard to use and people don't use it much"

Problem & Current Alternative

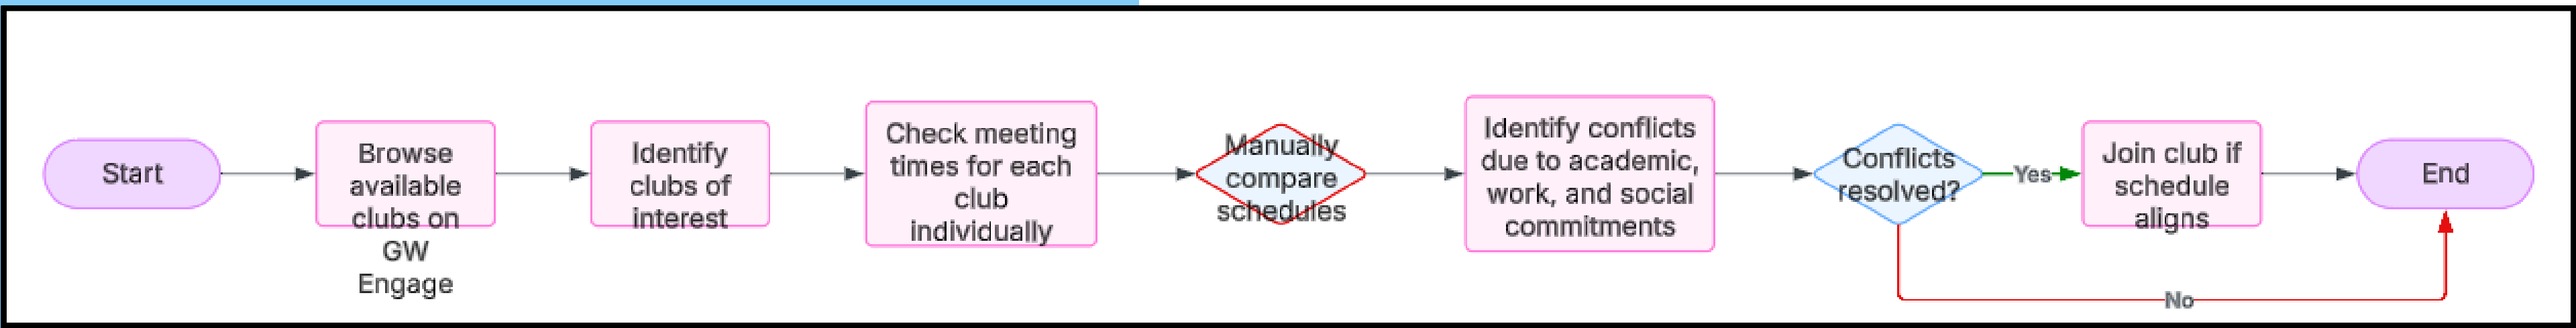

Students need an efficient way to align academic schedules with club meetings and events.

Pain points in the current process

- No integrated scheduling tool connecting students to clubs.
- GW Engage lacks real-time scheduling, making it difficult to coordinate.
- Club leaders struggle with recruitment and retention due to scheduling conflicts.

Opportunities for improvement:

- Centralized platform that syncs academic schedules with extracurriculars.
- Smart scheduling recommendations to reduce conflicts.
- Increased student engagement/retention through better visibility of available opportunities.

Solution

Solution & Key Features:

- Real-Time Schedule Integration
- Interest-Based Discovery
- Centralized Communication
- Analytics Dashboard

Customer Benefits:

Students

- enhances club participation
- easier to find university events that align with interests

Club Leaders

- streamlined event management
- better attendance

Universities

- Higher student engagement
- improved retention rates
- strategic planning through analytics

Problem-Solution Fit & Differentiation:

Current Issues

- GW Engage lack real-time synchronization and effective communication.

UniFlex Advantage

- Comprehensive integration of schedules
- event management, and data analytics,
- improving efficiency and user experience.

Business and Financial Model

Financial Metrics	Details
Initial Revenue Stream	**In-app advertisements** via CPM model ($2.50 - $5.00 per 1,000 impressions).
Projected Ad Revenue	**$22.8K - $45.6K** annually with 25K users viewing 1 ad/day.
Student CAC (CPM-Based)	**$0.13 - $0.30** per student (varies by ad costs). University licensing can reduce CAC (based on models like Blackboard & GW Engage).
Student Lifetime Value (LTV)	**$2.28 - $4.56** per student based on a 2.5-year average retention. Total LTV (25K students): **$57K - $114K**
Recruiter Subscription Model	Employers pay **$500 - $1,000** per month for access to student scheduling insights.
Recruiter CAC (Customer Acquisition Cost)	CPM-Based LinkedIn Ads: **$4 - $7.30** per recruiter (10% conversion rate). CPS (Direct Messaging Ads): **$20 - $40** per recruiter (25% response rate, 10% conversion).
Recruiter Lifetime Value (LTV)	**$12K - $24K** per recruiter (based on a 2-year retention period). 5 recruiters per university → **$60K - $120K LTV** per University

- *Initial Model: Ads as the primary revenue source.*
- *University Subscription: Shifting to institutional adoption to lower CAC.*
- *Customer Insight: Scheduling is the key student challenge.*
- *Recruiter Subscriptions: Currently exploring employer-paid access to student scheduling insights for optimized outreach as an additional/future revenue stream*

Thank you!

UniFlex simplifies student engagement by resolving scheduling conflicts. We seek funding and partnerships to expand and scale.

Appendix - Customer Discovery Responses

What improvements would make it easier for you to engage with campus clubs?

13 responses

More clear ads

As a commuter and busy student, being able to vote for times and choose from a variety of events might help.

Have meeting times

Ensure a proper scheduling system and synced calendars.

have a centralized platform

I wish there was a way for students to get up to date information about club meetings and events especially for prospective students and to be able to easily connect with student org leaders.

An service that allows for consistent updates and notifications for club events and recruiting

Better search tools and effective communication that gets a responses.

Appendix - Customer Discovery Responses

Is there anything else that would make it easier for you to stay involved in clubs and campus events?

9 responses

N/a

More active clubs

More constant event.

I liked the idea of personalized reminders, but personalized event recommendations based on schedules and interests is great.

Active communication and weekly reminders.

A centralized way of engagement where communication, recruitment, and engagement is tracked in one application for both current and prospective students.

An easier way to recruit on a potential platform or app

A better way of reminding and communicating

Appendix - Customer Discovery Responses

What frustrations do you currently have with existing university-provided club platforms (e.g., GW Engage, Campus Labs)?

21 responses

Unless someone explicitly says to rsvp to an event on Engage, you are probably not using the site. Most clubs only post their event there if they need people to rsvp.

Doesn't have a lot of important club information like meeting times

Lack of communication

hard to navigate & bad user interface

They don’t help track member retention, don’t help with recruitment as much, and not often a tool to track student engagement since most people ignore events listed in engage. It’s not centralized and it does a poor job connecting students with people in clubs.

I feel there are many instances where it is very slow or doesn't work at all. Also, I feel like with the amount of orgs and events you register for on Engage, it is easy to forget about an org or event or it is difficult to keep track of everything happening on campus.

Hard to use and manage. Sometimes is outdated
