EXPERIENCE

Premo Ventures — **Remote**
Technology Business Lead — **June 2025 - Present**

- Co-authored the PRD for a multi-location dispensary analytics platform; mapped 6 personas and **20+** user stories, set acceptance criteria for MVP scope, enabling on-time delivery and improving sales and inventory reporting accuracy by **30%.**
- Engineered API integrations across QuickBooks, AeroPay, AlpineIQ, POS systems, and banking feeds to automate cross-system reconciliation and deliver real-time visibility into revenue, payments, labor costs, and inventory performance.
- Automated cross-system validation workflows, reducing manual reconciliation time by 4 hours per week and minimizing financial discrepancies across branches.
- Led end-to-end feature development from ideation through deployment, translating Figma prototypes into scalable Next.js components and managing sprint cycles in Jira.

Gray Acumen — **Remote**
Business Analyst — **May 2024 - August 2024**

- Ran discovery through 5+ stakeholder interviews; defined problem statements and wrote lightweight BRDs that guided **5+** product enhancements, reducing operational friction by **30%** and accelerating feature delivery timelines.
- Identified and prioritized **7** major pain points, collaborating with engineering to deliver data-driven improvements that streamlined workflows and boosted efficiency, resulting in a **20%** increase in user satisfaction and stronger client retention.
- Created presentation decks and pitched enhancements to stakeholders, securing buy-in and accelerating approval timelines.

1-800-FLOWERS.COM — **Jericho, NY**
Software Engineering Intern — **June 2023 - August 2023**

- Drove accessibility improvements across **8** high-traffic pages by leveraging WCAG compliance tools, Magento, and Jira tracking; clarified requirements with designers and engineers, and successfully closed **100%** of P1 accessibility issues in-sprint.
- Collaborated cross-functionally to develop and present data-backed Gen Z-focused marketing strategy and trend analysis to the CEO and CMO, securing **1st place** in a company-wide competition by leveraging customer research and actionable insights.

Sarla Consulting — **Nassau, NY**
Technology Intern — **June 2022 - August 2022**

- Analyzed user feedback and partnered directly with **2+** clients to translate **10+** business requirements into Salesforce product flows, improving reporting efficiency by **25%** and enhancing data visibility for stakeholders across business operations.

TECHNICAL PROJECTS

New Venture Competition — **Washington, DC**
FINALIST — **March 2025 - April 2025**

- Placed **Top 5 out of 224** teams in GWU's New Venture Competition. Conducted **200+** user research sessions and in-depth competitive analysis to validate the product concept, test with users, and iteratively design based on feedback.
- **Co-founded Uniflex** and gave technical and business presentations to judges/VCs, achieving finalist placements.

Pitch George Competition — **Washington, DC**
FINALIST — **October 2024 - October 2024**

- Formulated and developed a prototype through extensive customer discovery, market analysis, market segmentation, and validated MVP scope, earning finalist recognition for strong product vision, user insight, and strategic clarity.
- Provided product go-to-market strategy to the VC panel; recognized for clarity, strategy, and market insight.

1-800-FLOWERS.COM Competition — **Washington, DC**
FIRST PLACE — **June 2023 - August 2023**

- Performed user requirements research to facilitate product advancements for corporate application; led in-depth interviews with **50** potential Gen Z clients to uncover unmet needs and position product to strongly resonate with target audience.
